

Lansing School District Gating Criteria

Gating criteria will be judged on information provided by Leavenworth County Health Department. This criteria is available from Leavenworth County Health at <https://www.leavenworthcounty.gov/covid/default.asp>. We will use the Leavenworth County Health information that is released on Monday. The gating criteria will be used as a guide. When all three criteria are in the red for two weeks, the BOE will need to convene after the Monday report to discuss school learning mode.

| Data Points Used | | |
|---|--|---|
| Criteria from LV County | Green | Red |
| 2 week County percent positive case rate (% positive tests/all tests performed) | 0-15 % | >15 % |
| Trend in County incidence rate | Decreasing or Stable | Increasing |
| New Cases/100,000 population (change from a 2-week period) | 0-200 | 201 or more |
| School Functions | | |
